

Types of Testing

Enabling Learning Objectives

- 1. Select from a list the DoD test type with its definition.**
- 2. Select from a list the types of tests that can be conducted.**

Types of Testing

- ▮ **COMMANDER DIRECTED.**
 - ▮ **Probable Cause (PO)** – Commander has sufficient evidence to believe that if he/she tests the Soldier that the Soldier will be positive. Commander should always check with the local SJA before ordering this test.
 - ▮ **Command Direct (CO)** – Also known as a Competence/Fitness for duty. The Commander believes the Soldier is on a drug because of unusual or bizarre behavior. The commander orders a test to ensure the safety of the Soldier and his/her coworkers.

Types of Testing

- ▣ **COMMANDER DIRECTED (Cont).**
 - ▣ **Rehabilitation (RO)** - The commander orders a test as part of the Soldiers rehabilitation program for drug or alcohol abuse.
 - ▣ **Inspection** - The commander orders a test to measure the good order and fitness of the unit.
 - ▣ **Inspection Random (IR)** - Part of unit (Random selection of personnel)
 - ▣ **Inspection Unit (IU)** - Entire unit (100% of the unit is tested)
 - ▣ **Inspection Other (IO)** - Testing based on a commanders written policy, such as all personnel taking more than 20 days leave will be tested upon their return to duty.

Types of Testing

- ▮ **Accident or Mishap (AO)** - A test is ordered because of an accident that destroys property or causes injuries to personnel.
- ▮ **Consent or Volunteer (VO)** - The Soldier volunteers to provide a sample; i.e. to clear up rumors about drug use. (Must be voluntary)
- ▮ **Physician Directed or Medical Examination (MO)** - A doctor orders a test after examining a Soldier and feels the Soldier is abusing drugs.
